

REMARKS

Applicant has carefully reviewed the Office Action mailed August 5, 2008 and has amended the application accordingly. At the time of the Office Action, Claims 1-87 were pending in the application. Applicant has amended Claims 1, 16, 18, 31, 46, 56, 71 and 86. Applicant submits the following remarks for consideration.

Examiner has rejected Claims 46-55 under 35 U.S.C. 101.

Applicant submits rejection of Claims 46-55 under U.S.C. 101 is overcome by the amendments made to Claim 46.

Examiner has rejected Claims 1, 16, 18, 31, 46, 56, 71 and 86 under 35 U.S.C. 102(b) as being unpatentable over Walker et al (US 6,684,276).

Independent Claims 1, 16, 18, 31, 46, 56, 71 and 86 as now amended and all dependent claims thereon include novel and physical features that provide new and advantageous results not anticipated by Walker et al (US 6,684,276). Walker does not anticipate changing information presented to custom information for the patient but instead teaches using diagnosis specific pre-populated templates/forms.
